

VISIONAIR BLUE LINE

MediaMax

- DustFree Universal •
- SmokeFree Global •
- MicrobeFree Global •

With the VisionAir BlueLine MediaMax you can tackle visible and invisible (fine) dust, as well as gases and odours. This common indoor air pollution has a negative effect on all attendees, even on people with good health. The filter combination of the MediaMax is used in shops, workshops, office spaces, shoemakers and plaster departments. Depending on the content of room you can opt for a VisionAir Blue Line 1 or a VisionAir Blue Line 2. Both can be mounted to or in the ceiling. The visionAir Blue Line 1 can also be mounted on the wall and on a movable display.

FILTER PRINCIPLE

The VisionAir Blue Line MediaMax contains a unique filter system, which cleans indoor air in three phases.

Phase 1: the **pre filter** captures the bigger particles of dust and other polluting items such as hairs and skin flakes.

Phase 2: the **Media Chamber [HM] (H13 HEPA)** filters fine dust up to 99,95%. Thanks to the large filter surface, a low air resistance and a high filter capacity are achieved.

The Media Chamber in operation:

Phase 3: finally the **Standard Carbon Filter (AC2)** adsorbs unpleasant odours and gases.

DIMENSIONS VISIONAIR BLUE LINE 1 MEDIAMAX

| | |
|----------------------|--------------------|
| Dimensions L x W x H | 630 x 620 x 290 mm |
| Built-in height | 210 mm |
| Net weight | 16.5 kg |

DIMENSIONS VISIONAIR BLUE LINE 2 MEDIAMAX

| | |
|----------------------|---------------------|
| Dimensions L x W x H | 630 x 1050 x 290 mm |
| Built-in height | 210 mm |
| Net weight | 32.5 kg |
